WATER OBSERVATIONS.

Government Makes Daily Record at Five Points in this County.

W. C. Sawyer, who has been reading the stream gauges in different points in the county, the same being a part of the government work, went last night to Malheur county, where he will have the same duties to perform for a time.

Observations of height and amount of water are now taken at five points in this county at three points on the Umatilla river and two on the Walla Walla. At Umatilla B. V. Pompella takes the observations; at Yonkum, Luther DeHaven; at Gibbon, H. W. Swart; at the south fork of the Walla Walla, Harry Huber; at Milton, S. L. Smith.

No observations are taken at Pendleton during the summer months, as the gauge is set at the bridge and the Byers' race necessitates the supply of water below it being very variable during the season of naturally low water, as a portion of the time it is wide open; at other times it is nearly closed to economize the last barrel of water; while again the water will be suddenly released. So at this point it is not possible to take the height of the water without going above town beyond the influence of the race, which would necessarily be on the Reservation or above it. The observation is taken here by official connected with the department directly.

The observations on McKay creek have been entirely discontinued. They were made by Mrs. C. W. Lyman.

DISTRIBUTION OF GRADES.

Most of Scholars Going to North Side School Live in West End.

There are ten teachers in Pendleton district, whose work is confined wholly to the first, second and third grades, yet of the entire enrollment of pupils in those grades there are but 23 north of the river. Of the entire enrollment of 42 in the North Side school, all are residents of the west end but three. The 39 others formerly attended school in the old Academy building on East Webb street, and all are fourth graders.

The west end of the city furnishes the entire enrollment for two of the three fourth grades in city schools, and the entire enrollment for two of the three third grades in the city schools. Only one of each of the fourth and third grades is furnished by the North Side.

The situation, to effect an equitable distribution of the scholars, so as not to impose any hardships of travel on the small pupils pending the completion of the west end school house, is very complex.

DISTRIBUTING POINT.

William McLaughlin and wife arrived on the early train this morning from the west, and will leave for the East this evening.

E. church, under the auspices of the Woodmen of the World, was pronounced by those who witnessed it to be the finest ever seen in Pendleton. The building was packed to the "standing-room-only" point, and more than 200 people turned away. Before 8 o'clock, the hour set for the opening, the doors were closed against further admittance.—Morning Oregonian. Will be at Thompson Street M. E. church Tuesday evening under the auspices of Epworth League.

EAGLES TO INITIATE

SEVENTY-FIVE NESTLINGS

WILL BE TAKEN IN TONIGHT.

Pendleton Aerie No. 288, Prepared for the Gala Day of Its Existence—Banquet Will Be Spread for Large Number—Judge James A. Fee Will Be Toastmaster and Will Call Early and Often on the Orators Present—Many Outside Candidates Will Take the Mysteries.

The great American Eagle will not scream this evening, he will fairly howl when the members of Pendleton aerie No. 288, F. O. E., gets together and soars into the mysteries of fraternalism with 75 trembling nestlings. Preparations have been made for one of the largest gatherings in the history of the local aerie. For weeks past applications have been pouring into the aerie and the increase in membership is beyond the wildest expectations of the lodge-men.

There will be 15 tyros from Echo, half a dozen or more from each of the towns of Weston, Freewater and Athena. Adams and Helix will also be represented, while from out of the city come more than half a hundred. Almost every newspaper in the county will send one or more candidates.

Following the initiations which begin at 8 o'clock, the Eagles will sit down to a spread in the banquet rooms of the lodge in Hendricks' hall. Judge James A. Fee, of this city, will preside and will be assisted in the dispensation of wit and mirth by "Colonel" Clark Wood, of the Weston Leader, and "Colonel" Fred Boyd, of the Athena Press. These two rival, but friendly newspaper men will be accorded seats of honor at opposite ends of the toastmaster's table. Wood has long worn the plumage of the national bird, but Boyd will taste its mysteries for the first time tonight.

No set program has been arranged. Judge Fee will be left to call upon whom he chooses and upon as many as he pleases. The crowing of the barnyard fowl will be taken as the only signal for the dispersing of the jolly crowd.

The committee in charge of the affair expect fully 200 persons to be present at the banquet and the lodge ceremonies. Roast pig, sandwiches, salads, fruits, nuts, coffee and other palate-pleasing foods and beverages will fill the tables.

Visiting Eagles from Walla Walla and towns in Umatilla county will come to Pendleton to witness the affair. The lodge will open at 7 o'clock this evening.

It is the intention of Pendleton aerie to erect a lodge building shortly. The financial condition of the local lodge is rapidly becoming stronger and the temple to be built will cost in the neighborhood of \$27,000.

GAME WAS A TIE.

Pendleton Team Shows Superior Skill on Walla Walla Field.

The football game played at Walla Walla Saturday afternoon between the Pendleton and Walla Walla high schools resulted in a tie, with a score of 6 to 6.

The game was hotly contested, but those who saw it, declare the local eleven showed up superior to their opponents. A return game will be played in this city later in the season.

The Pendleton team secured a second touch-down, which was disallowed by the referee on the grounds that the Pendleton men were within the five-yard limit when the local man was forced over the goal.

Climate Agrees With Him.

Miss Jessie Troyer, accompanied by her father, John O. Wilson, who has been visiting her and her sister, Mrs. L. L. Church, went to Everett this morning, expecting to be absent until the holidays. Mr. Sommerville returned to vote. He expects to go back to Portland for a few weeks, later in the year.

John N. Barr Will Build.

John N. Barr, who lives three miles north of Warren station, has finished sowing 480 acres of winter wheat. The rain has been abundant enough in that locality to put the ground in first class condition, and the wheat men are in good spirits. Mr. Barr will next spring build a residence that will cost about \$3,000.

Prospector from Indiana.

C. B. Caney, of Knox, Indiana, arrived last night and will be met here by his brother, G. G. Caney, who lately moved into a farm near Pilot Rock. Mr. Caney comes with the definite intention of locating in Umatilla county, but is cautious enough to put in a winter at prospecting before investing.
